

WHAT HI-ROLL OFFERS YOU

1. A QUALITY PRODUCT

At our Melbourne Head Office warehouse, we stock a huge range of world-class quality ball and roller bearings, timing belt tensioners.

All products imported and distributed by Hi-Roll are manufactured to OEM standards.

2. QUICK DELIVERY

We ensure we have in stock bearings for all late model modern vehicles.

All orders received by 5pm are delivered the following day. And if it is a bearing for an older car and we don't happen to have it in stock, we will source and deliver within 48 hours!

3. REALLY KEEN PRICES

Our prices are always very competitive and fair. We will not be beaten on price!

Demand the best – PFI – proven for their world-class quality

WHY PFI IS A WORLD-CLASS PROVEN PRODUCT

1. **PFI** gold standard is Mobil Polyrex EM Ultra Quiet Water proof high performance grease rated to 177°C.
2. **PFI** uses Long Life Forged Steel Wheel Hubs.
3. **PFI** has the highest ISO TS16949:2009 world proven quality rating.

PFI BEARINGS SOLD THROUGHOUT AUSTRALIA AND THE WORLD

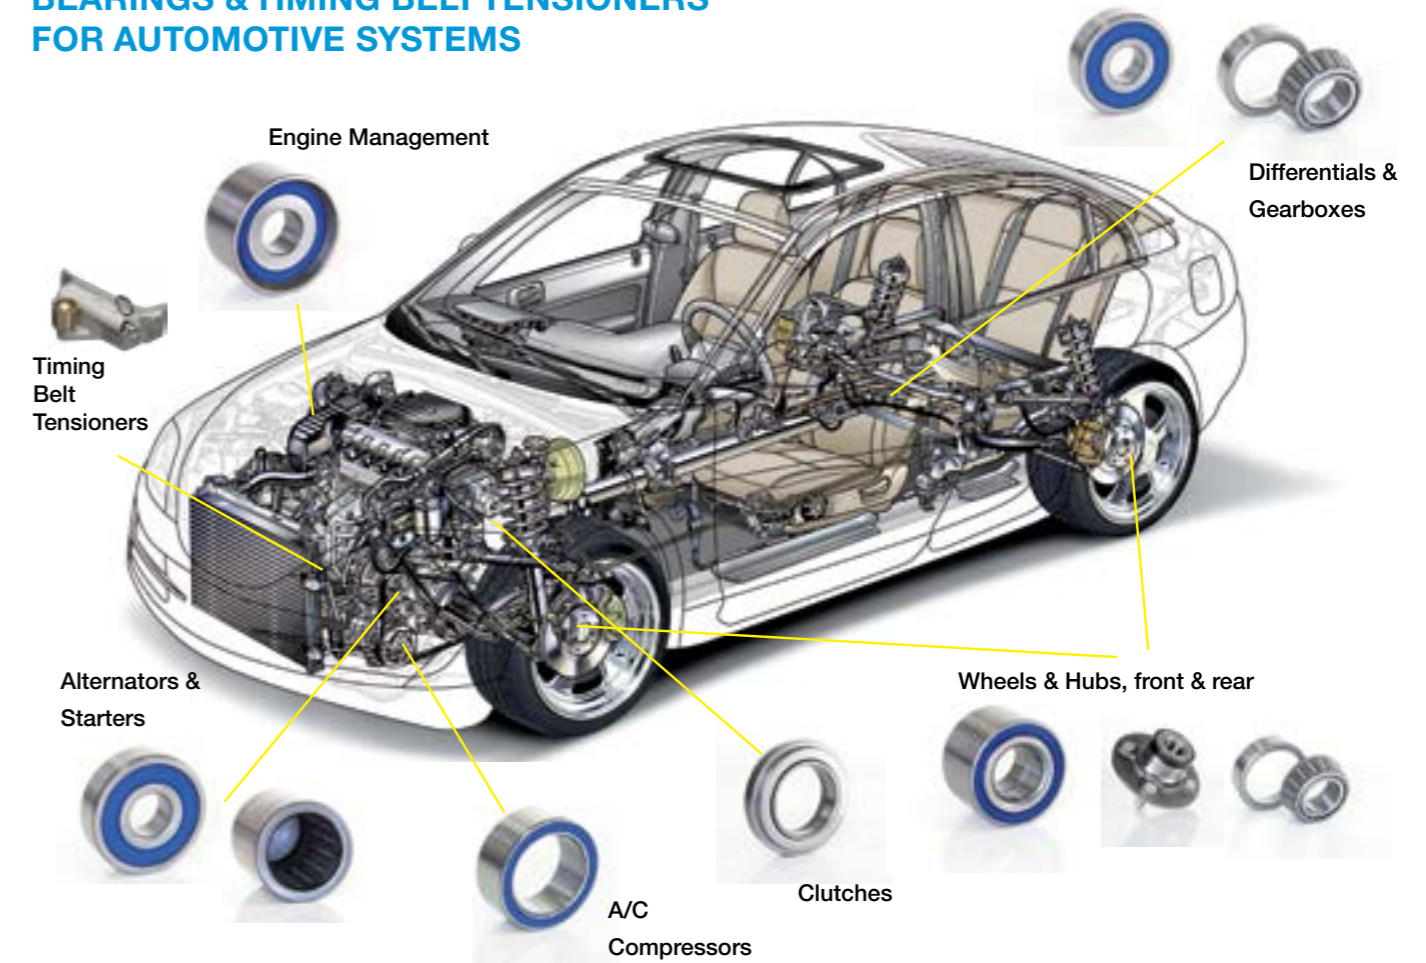

PFI Bearings are sold in 67 countries.

In Australia and Pacific region, they are supplied and supported by Hi-Roll Bearings, a 30 plus year Australian company with a reputation and commitment to meeting its customers every expectation.

WHAT CAN YOU EXPECT FROM HI-ROLL BEARINGS

1. Hi-Roll has in excess of 5000 line items in stock.
2. For Bearings ex-stock, we guarantee delivery next day if order received before 5pm
And through our Direct Air Freight Program, we can source and supply any bearings not in stock within 48 hours.
3. Our commitment is to exceed your expectations by delivering the highest quality product & service at a super competitive price.

BEARINGS & TIMING BELT TENSIONERS FOR AUTOMOTIVE SYSTEMS

Hi-Roll Bearings specialises in supplying quality replacement automotive ball & roller bearings to OEM standards for all late model vehicles

QUALITY ASSURED

PFI Bearings are manufactured according to World International ABEC and DIN standards in effect on the date of manufacture and use as a Gold Standard Mobile Polyrex EM Ultra Quiet, Water Proof high performance grease rated to 177°C.

HIGH STRENGTH BEARING STEEL

PFI are manufactured from FORGED AISI 52100 chrome steel inner rings, outer rings providing a molecular structure increasing extended bearing life. All rolling elements and inner & outer rings are heat-treated to 60-65 HRC.

ACCURACY

PFI Bearings are manufactured to International world standards ABEC 3 (ISO 492 class 6) dimensional tolerances.

RADIAL INTERNAL CLEARANCE

PFI uses preselected OEM preload on all Wheel Hub Bearing units to provide optimum long life, and the standard production program consists of world standard radial clearance C3. Other radial tolerances are available by special order.

Every **PFI** Ball Bearing is electronically tested for noise and vibration according to ANSI/AFBMA Standard 13-1987. Our testing process allows us to check for unwanted noise in the full sound frequency range.
